

## A Level summer transition project

# Geography

With reference to a specific coastline, identify and evaluate the coastal management strategies that are in place. You should suggest the reasons for the strategies used in regards to the rock type and land use along this stretch of coastline.

### You must:

- Draw sketch map to show the location of the coastline.
- Explain why protection is needed (has it eroded in the past? Has there been a coastal flood?)
- Describe the types of management in place on this coastline, looking at both hard and soft engineering.
- Explain why different types of management used along this coastline.
- Evaluate the effectiveness of this management.

[www.coolgeography.com](http://www.coolgeography.com)

[www.bbc.co.uk](http://www.bbc.co.uk)

[Local newspaper articles from the area will also be useful.](#)

Write or type up your findings and bring your report to the first Geography lesson September.

You should spend between 6 and 8 hours on this project.
